

Sydney/Sydney Eye Hospital

Honorary Oculoplastic Fellowship

Position Description

July - June

About

The Sydney Eye Hospital, established in 1882, is the largest eye hospital in the southern hemisphere. The hospital was originally the ophthalmic department of the old Sydney 'Infirmity' (Sydney Hospital), which was founded with the settlement of the Colony in 1788.

In 2022, Sydney Hospital and Sydney Eye Hospital (SSEH) is a public hospital specialising in Ophthalmology, Hand Surgery, Drug & Alcohol and Sexual Health within the South-eastern Sydney Local Health District (SESLHD). There is a separate Eye Emergency Department as well as a General Emergency Department.

The Hospital has a long-standing reputation for treating complex patients, attracting referrals on a state-wide and national basis.

The Hospital is a teaching hospital with an onsite ophthalmic academic unit for Sydney University and has academic associations with the University of NSW and the University of Technology, Sydney.
